FEATURES & BENEFITS | PRODUCT FOCUS

FIBERGLASS DOORS ↘

Our fiberglass entry doors have the following features and benefits:

FIBERGLASS REINFORCED SKIN ↘

Our fiberglass door skins are designed for easy maintenance without splintering, rotting and warping as compared to wood doors, while also preventing denting, rotting and rusting as compared to steel doors. Our smooth doors can be painted and our woodgrain doors come in a variety of grains that can be painted or stained.

FULL LENGTH COMPOSITE TOP/BOTTOM RAILS AND STILES ALL ↘

6 sides of Trimlite fiberglass doors are made from composite material that protects the doors from water infiltration that can lead to rotting or warping.

EXTRA WIDE FULL LENGTH LOCK BLOCK ↘

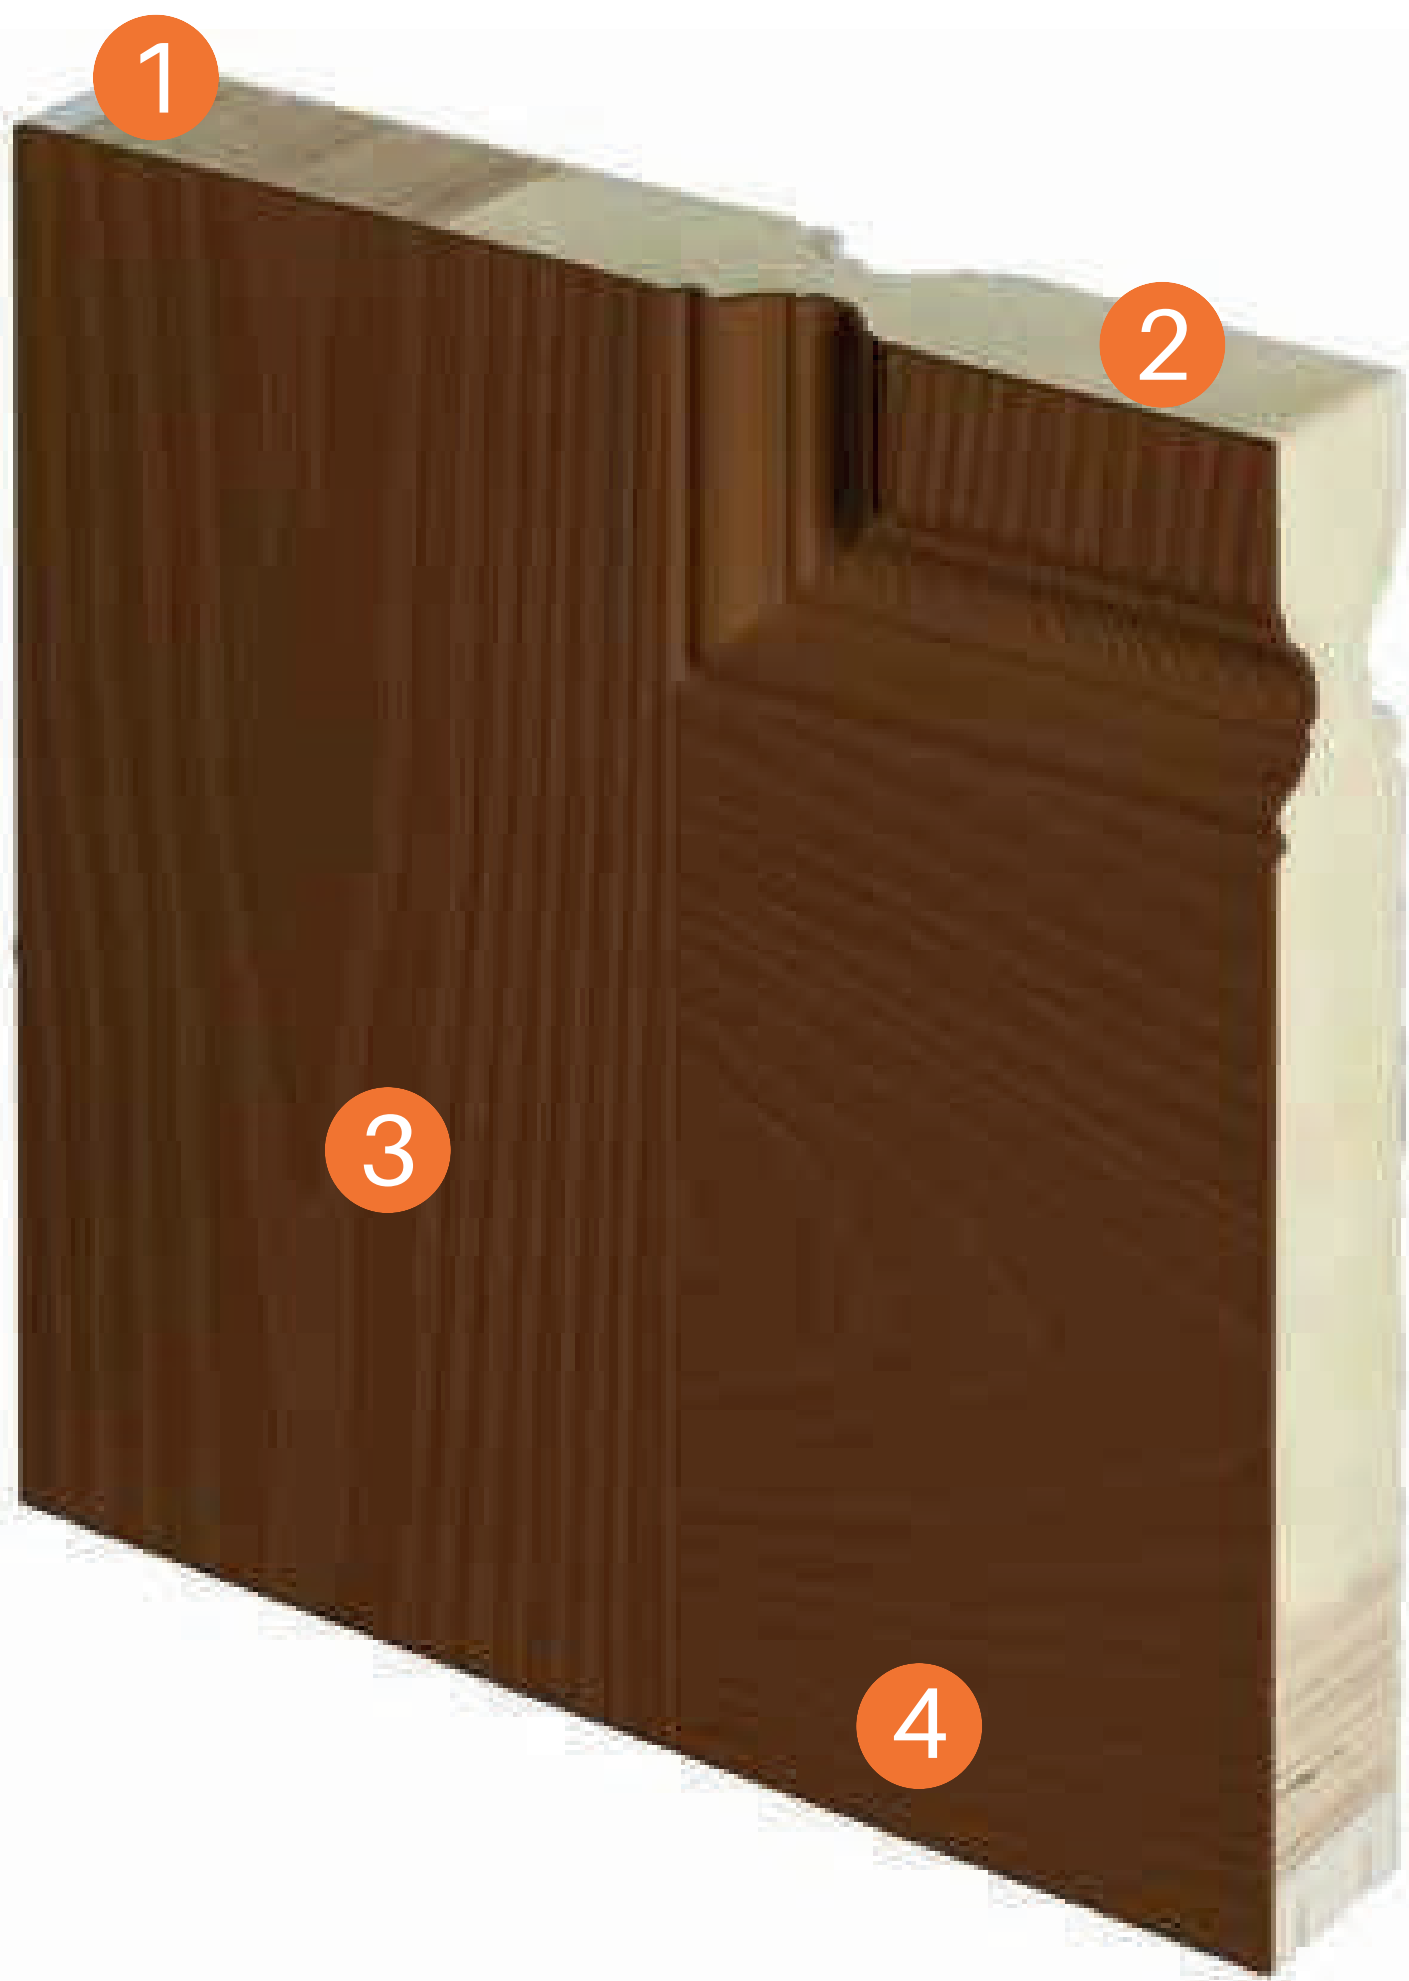

Our fiberglass doors include a 3-3/4" wide LVL lock block with 7/16" PVC cap running the full length of the door to provide strength and stability to the door which prevents warping or thermal bowing. It also allows for the installation of multipoint hardware for increased security.

CFC FREE POLYURETHANE FOAM CORE ↘

Our CFC-Free, high density foam core allows for superior insulation as compared to wood doors while also providing improved soundproofing.

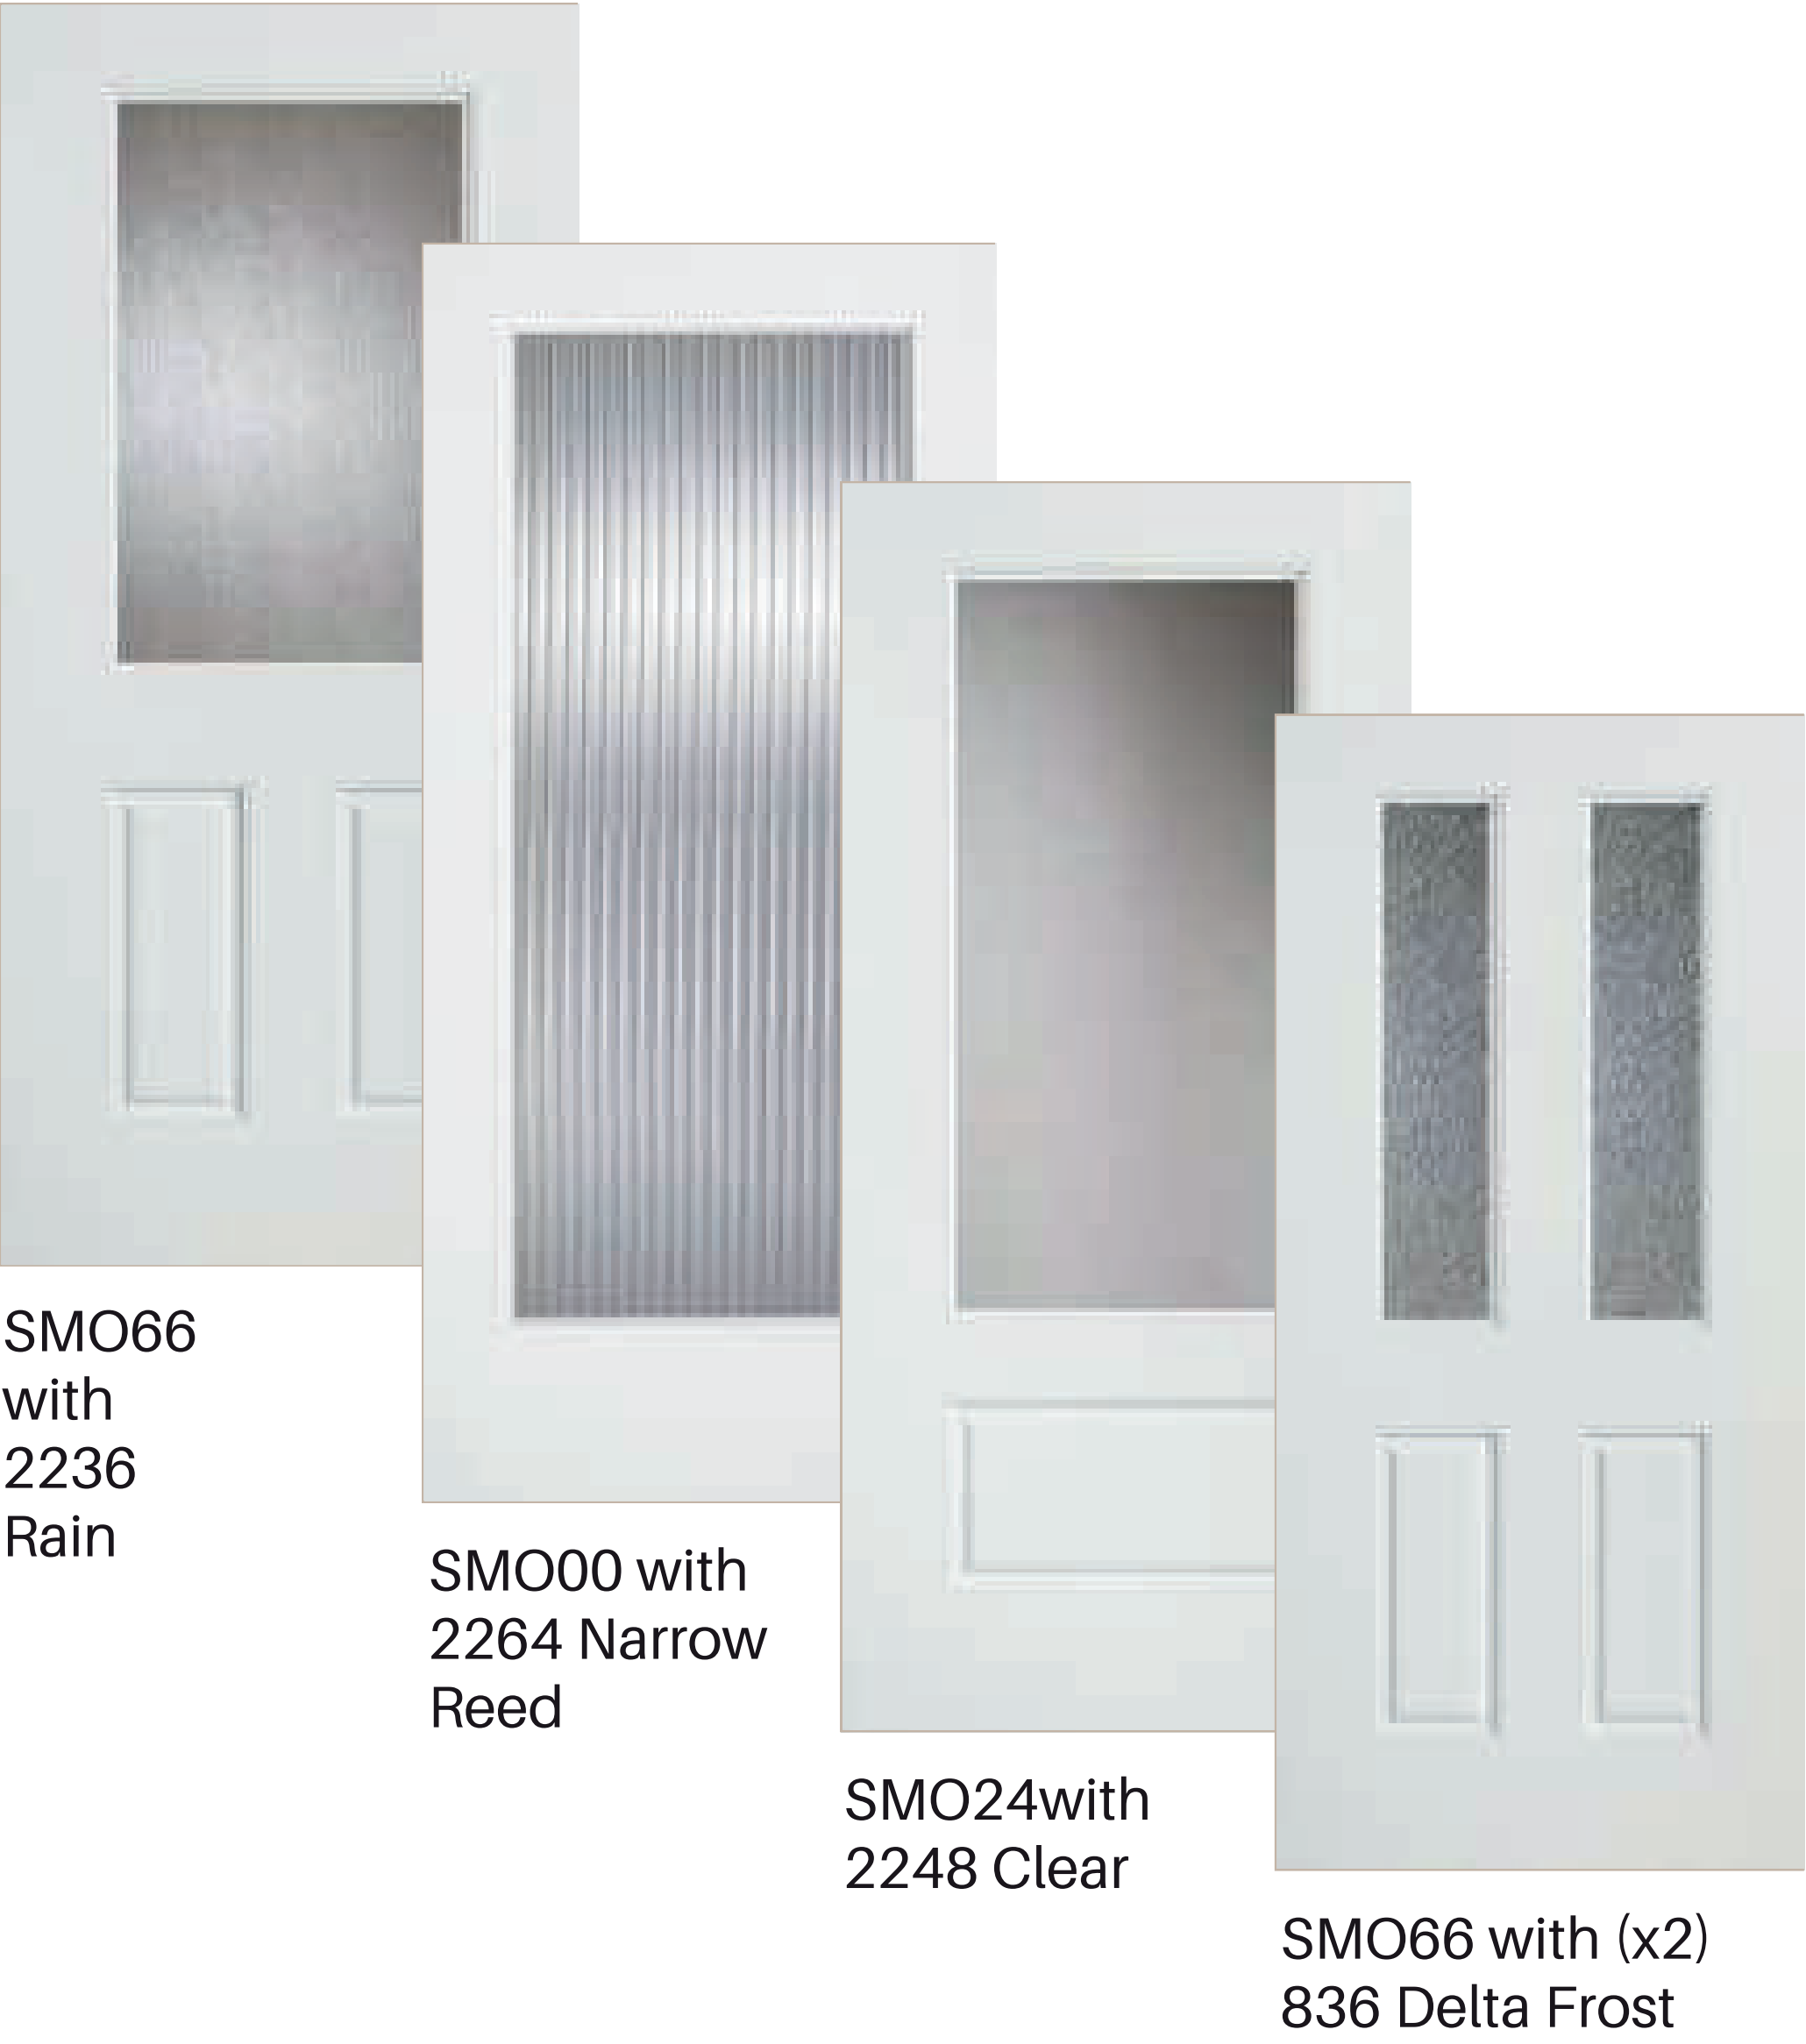

FEATURE & BENEFITS

- 1 FULLLENGTHLVL FOR EXTRASTRENGTH AND RIGIDITY (STRIKE SIDE SHOWN)
- 2 100% CFC FREE CORE
- 3 3MM THICK SMOOTH OR WOODGRAIN FIBERGLASS SKIN
- 4 DURABLE ALL-WEATHER COMPOSITE TOP & BOTTOMRAILS & FULL-LENGTH COMPOSITE STILES TO PREVENT WATER INFILTRATION

PRODUCT FOCUS | ENERGY EFFICIENCY

Trimlite carries a wide range of energy efficient doors and glass to meet changing energy code requirements. Our decorative and textured glass comes standard with Low-E and Argon Gas to comply with the latest energy ratings. We partnered with Cardinal Glass for our standard Low-E Glass, as they offer a variety of dual and triple glazed options to address many sound and energy needs.

Need more performance in your doorlite... Consider Cardinal Glass

Trimlite uses Cardinal Glass for all of our Flush Glazed One-Lite Doors.

Cardinal Glass offers:

- Energy Efficient Options to Meet the Most Stringent Energy Codes
- Double Glazing, Optional Triple Glazing
- Additional Air Fill Options
- Custom Pane Options
- Custom Internal Grid Options and Patterns

We can work with you to find the right option for you.

RUSTIC SERIES ↘

RUSTIC SERIES

Our Rustic Series doors make use of charming features like vertical planks, distinct panel details and arched tops for a homey, country appeal.

Dentil Shelves are made of lightweight High Density Polyurethane (HDP). It is lightweight which makes it easy to install onto a door. It is weather-resistant and will not warp, rot or crack. Available in Woodgrain, Smooth, or Fir Grain finishes.

THE HIGH DENSITY POLYURETHANE (HDP) PROVIDES MANY BENEFITS SUCH AS:

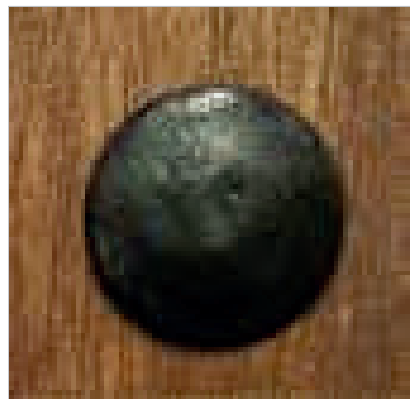

EASY INSTALLATION using common wood working tools and equipment
WILL NOT ROT or absorb moisture, and resists the growth of fungus and mildew

CLOSED CELLULAR STRUCTURE prevents paint from peeling from the surface

WILL NOT WARP OR CRACK when properly installed, or be affected by UV rays when properly coated

MODERN TEAK

TEXTURED FIBERGLASS

Long praised for its natural beauty and endurance to the elements, teak has become one of the most valued wood species on the planet. This modern fiberglass teak design is perfect for contemporary or traditional design. Though the teak series is beautiful with any hardware combination, European styling is achieved when paired with an architectural door pull and deadbolt combination. When ordered, these slabs arrive as a light almond colour to accept paint or gel stain.

OPEN & BEADED

TRADITIONAL OAK

Open & beaded fiberglass slabs feature sleek lines, providing the perception of a more enhanced viewing area. Smooth white or oak woodgrain slabs are consistent from door edge to glass, incorporating the glass directly into the door and creating a clean, uninterrupted look.

The slab is manufactured as an open and beaded mould with removable glass stops and an opening to accept a glass insert that can be interchanged in an event of glass failure or a change of home owner's taste. The flush glazing keeps the unit water and weather resistant for years to come.

NEULITE

SMOOTH

With simple and aesthetically clean glass beadings, Neulite Open & Beaded doors are designed to complement today's contemporary home decors. The shaker-style beadings allow for a 1" standard glass thickness and all standard size glass inserts, whether it be decorative, privacy, textured or completely clear. This collection is so versatile that it can be used as an elegant front entrance or an escape to a backyard garden oasis

HYDROSHIELD PROTECTION

Crafted with Hydroshield Technology, every Richersons Open & Beaded door contains the best combination of performance, durability, security and appearance.

Richersons Open & Beaded doors are precision engineered to provide protection against water infiltration. The specially engineered composite material will never absorb water, eliminating the problems commonly associated with wood and metal doors.

COMPOSITE JAMBS & ACCESSORIES

Maintenance-free smooth white or woodgrain composite offers all the strength and convenience of wood with enhanced properties, providing a moisture and damage resistant product suited for the Canadian climate.

Though machined with the same process as traditional wood door frames, solid composite provides twice the holding power of wood. While similar door frames may crack or bow under

the intense cycle of the Canadian climate, Nan Ya's composite door frames have proven to stand proud against the test of time.

Research shows that in most forced entry situations, door system failure lies within the frame, not the door slab. Our composite frame will not splinter or crack, providing a virtually

indestructible product and reducing forced entry concerns.

Nan Ya's premium composite frames — an innovative alternative to traditional wood frame construction

- Textured woodgrain or pre-pigmented smooth white frame components are a blend of PVC and wood fiber composite substrate.
- Solid composite provides twice the holding power of wood.
- Will not discolour, absorb moisture, splinter, or rot.
- Textured woodgrain composite components have a realistic rich appearance requiring paint or stain.
- Jamb can be painted or stained to your requirements.
